Employment Opportunity – Weed Inspector

The [Weed Control Act](#) is provincial legislation that empowers municipalities to enforce the control of prohibited, noxious and nuisance weeds by land owners within the boundaries of the municipality.

The role of the weed inspector under *The Weed Control Act* is to monitor the municipality for the prohibited and noxious weeds to detect new occurrences of those weeds in a timely manner. The weed inspector must also respond to complaints from residents of the municipality regarding prohibited, noxious and nuisance weeds.

Weed inspectors whose appointments have been acknowledged by the Saskatchewan Ministry of Agriculture, have the power to:

Enforce [The Weed Control Act](#).

- Enter onto private property (except for dwellings) to inspect for prohibited and noxious weeds, as well as nuisance weeds in response to a complaint.
- Issue Agreements or Orders for the Eradication of prohibited weeds and isolated noxious weeds, or containment and integrated control of established noxious weeds as well as integrated control measures of nuisance weeds.
- Arrange for the appropriate measures to be taken by the municipality if Orders or Agreements issued regarding prohibited, noxious or nuisance weeds are not complied with in the time required.

Issue permits for the movement of machinery, domestic animals or other material that may be contaminated with prohibited or noxious weeds under conditions that the weed inspector may allow.

The secondary role of the weed inspector is to co-ordinate overall invasive weed management in a municipality. By working with individuals, businesses, governments and other organizations, the weed inspector can ensure that all prohibited and noxious weeds are controlled by all land owners, and that no uncontrolled infestations remain.

The weed inspector can also contribute to reduced weed problems and costs by raising awareness of prohibited and noxious weeds with residents of the municipality, and co-ordinating local biological control activities.

Applications will be received until 4:00 PM February 19, 2020.

Resume and expected wage can be submitted to:

Carbon Tax on Fuel for Drying Grain

The difficult harvest this fall has further demonstrated the negative impact of the carbon tax on farmers. To support our federal lobby efforts, the Saskatchewan Association of Rural Municipalities (SARM) is asking farmers to share information about how much carbon tax they've had to pay for drying grain. Farmers in the community that would like to help out by sharing their invoice amounts, please send the information to **Karen Morris** at kmorris@sarm.ca

The Goodsoil Housing Authority currently has a Family Unit available for rent in Goodsoil.

If interested, please contact the Housing Manager, Vanessa Weber, at 306-238-7623 for more information.

Snow Plowing

The RM of Beaver River can be contracted to snow plow your driveway. Prepaid snow plow flags are available at the RM office for \$40 plus GST. A form must also be filled out authorizing the RM to complete this work. The form is available both at the RM office and on the website under Policies & Bylaws, then click on RM Forms. If you purchase a flag and place it at your driveway entrance the work will be done when the grader is in your area.

Each flag is only good for one grader visit.
