

RM of Beaver River No. 622

Providing ratepayers with
current and correct information
pertaining to the RM

June 2023

159 Main Street, Pierceland
Box 129, Pierceland, SK S0M 2K0

306-839-2060
www.rmofbeaverriver622.ca

That the RM partnered with Big Island Cree Nation to complete the application of MG-30 Dust Control Product on Range Road 3251, north of Highway 55. Big Island contributed \$30 000 to this project.

What is MG-30? A mixture of a calcium chloride brine, magnesium hydroxide, other alkalis and iron. This unique formula creates a liquid that is ideal for base stabilization. The use of MG-30 ensures a tough, moist surface, minimal aggregate loss, and an environment with plenty of fresh air and visibility.

Should this product, applied by Green Earth Road Spraying, prove to be a success, RM Council may consider it's use in future years road management plans.

*Happy
Canada Day!*

The RM of Beaver River office will be
closed
Monday July 3, 2023
to observe Canada Day

Transfer Site Hours

Goodsoil Transfer Site Hours

Sunday and Tuesday 10:00 a.m. – 4:00 p.m.

For more information or to join please call Rick Danilkewich
780-719-7106

The Pickleball courts at the Goodsoil School are open to anyone at any other time with no nets, balls or paddles provided.

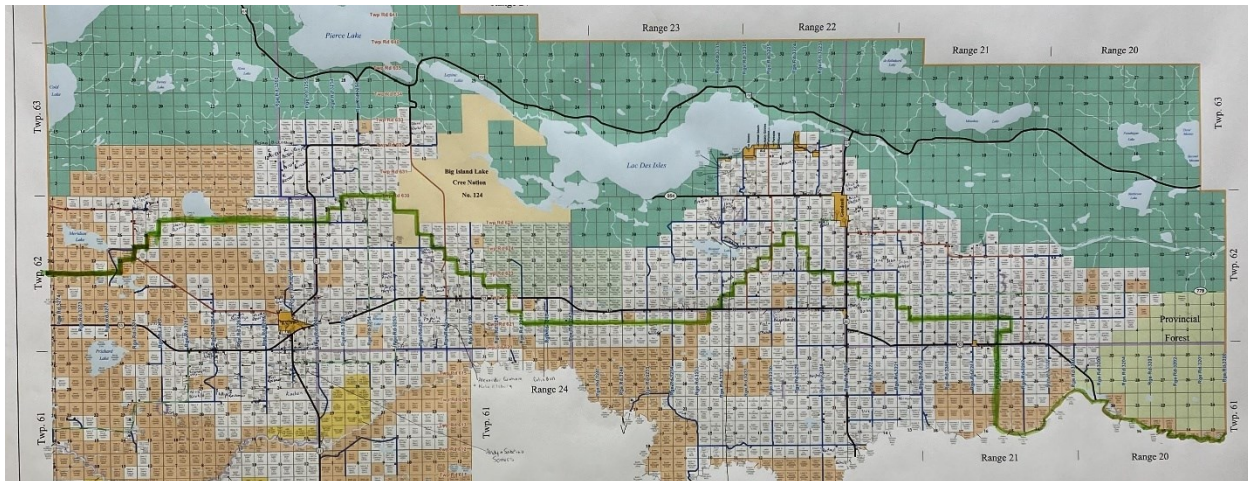

Fire Ban Clarification for the RM of Beaver River

As of May 17, 2023 10:00 am

Due to hot, dry conditions and an extreme fire risk that covers most of northern Saskatchewan, the Saskatchewan Public Safety Agency (SPSA) has issued a provincial fire ban for Crown lands, provincial parks and the Northern Saskatchewan Administration District, effective immediately.

The fire ban includes any open fires, controlled burns and fireworks.

This provincial fire ban supersedes the RM Level 1 ban in that a fire ban in a provincial park includes any quarter section wholly or partly within 4.5 km of a provincial park or provincial forest. The areas north of the green highlighted line on the following map indicate the included area for the provincial fire ban. Please note that this provincial ban includes all lakeshore subdivisions.

From Saskatchewan Parks:

“All open fires are prohibited when restrictions are in place. However, CSA-approved self-contained portable gas heating devices and gas fire pits, barbecues, pressurized stoves and charcoal briquettes will be permitted for cooking at park discretion.”

People can find the latest fire risk maps and municipal fire ban map at saskpublicsafety.ca

Updated RM Maps Now Available

The 2023 version of the RM map is now available for purchase at the RM office at a cost of \$15.00 plus tax. Subdivision maps are soon to follow.

Thank You

On behalf of the Goodsoil Recreation Hall Board we would like to thank the many people that volunteered there time, talents and hard work ethics that went into the renovations of the Goodsoil hall.

We started out with gutting both bathroom, and changing doorways to the Lions room, cloak room and the two storage rooms on either side of the stage. These two rooms were also cleaned out totally. Which led to several of loads of garbage being hauled out. Then the drywall mud and taping took place. From there we went to removing and replacing all the ceiling tiles. Ceiling hooks were put in place for decorating purposes. We painted all the walls, installed four foot wall board and all new floor moulding. All the lights, light switches and plug-ins were changed. The flooring was replaced in bathroom, bar area, cloak room and front entry. Metal doors were installed to the two storage rooms. These two rooms will now be used to store the table and chairs. The bathrooms have all new toilets, sinks, counter tops, back splashes, urinals, lights and fans. Some changes took place in the kitchen with the closure of the serving window, new lighting, paint and back splash. Then a total cleaning took place in the kitchen. As you can see many things were done by our volunteers.

We would also like to recognize the groups that gave monetary donations, Goodsoil Credit Union Legacy Fund, Village of Goodsoil with this money we were able to replace both furnaces and air conditioner. RM of Beaver River No. 622, Theatre group, 3D Construction, Sierra Consulting, Halloween Howler, Evan & Sherri Stephens.

The Beaver River Health Foundation also donated a baby change table for the men's bathroom and also two First Aid Kits.

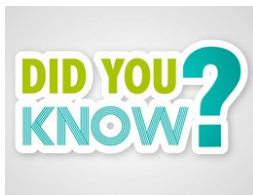

We would also like to thank the expertise of Baer Electric, TP Plumbing and Heating, Southern Shore Construction, Stoeibich Construction, and Goodsoil Rona.

With out all of the community support from our volunteers this job would not have been done.

So once again a **big bouquet and thank you** goes out to all of you from the Goodsoil Recreation Hall Board again for a job well done.

Regular RM Office Hours: Monday to Friday 8 am to 12 pm and 1 pm to 4 pm

Ladybugs, or lady beetles, are insects in the beetle family. There are about 5000 species of these tiny insects, and most of them are quite helpful. Although best known as a red insect with black spots, ladybugs come in a variety of colors, and some have stripes or no markings at all. Ladybugs earn their place as a desirable insect based on their preferred diet of plant-damaging insects, including aphids. Ladybugs lay hundreds of eggs in aphid colonies, and as soon as they hatch, the larvae immediately start feeding. Instead of heading south for the winter, ladybugs living in colder climates enter diapause, a type of insect hibernation. When the aphids begin to disappear, ladybugs realize that winter is coming and flock together to reproduce right before entering hibernation. During this period, which can last as long as nine months, they live on their fat reserves, which hold them until spring when insects become plentiful again.

Yellow Flags for Dust Control

If you apply dust control to the road in front of your property we now have yellow flags available to place at the beginning and end of the dust control placement that will alert our grader operators to change their procedure. These flags are available at the RM office in Pierceland at no cost to the ratepayer.

Dust Control

Tyler Singer 306-236-6062 provides dust control products in our area. Please call Tyler directly for pricing and calcium product information.

Happy

CANADA

Day!
