

# Spring Newsletter

Spring will be here before we know it!

## Board Members

In December, the Lac des Iles Utility Commission board hosted Daryle Pope and Kim Larson at their final board meeting, we thank both gentlemen for the years spent on our board. In January, we welcomed new board members Clint Lambert and Monte Palsat, adding more knowledge in business and water treatment to the board.

## E-transfers

The decision was made by the board to offer e-transfer payments again. E-transfer payments will be auto-deposited to the Utility Commission bank account. It will be **EXTREMELY** important to add your account number and/or service address along with the name of the account holder to the notes of the e-transfer. If this information is not provided the money may not be posted to the correct account. If a payment is in limbo because we don't know where it belongs and your account becomes past due, your account will be subject to interest charges.

## Curb Stops

Please **DO NOT** touch the curb stop to your property. The curb stops are Rural Municipality of Beaver River property and should not be tampered with. We have become aware of some leaks resulting from the customer performing the shut off themselves. If you need to turn your water on or off please contact the Utility Commission office at 306-839-2066 , email [lacdesilesutilities@sasktel.net](mailto:lacdesilesutilities@sasktel.net) or contact a Utility Board member.

## Internet Service

In the coming months we will be installing internet service to the Water Treatment Plant to allow added security features as well as remote monitoring of the Water Treatment Plant.

Have a wonderful summer and be watching for the **2024 Water Bills** to come out at the end of June 2024.
